OUTLINE ITINERARY (tailored to client briefs):

After a short welcome and overview of the session each team will be set the challenge of developing a new brand of premium chocolates. Using interactivity and group work, teams will be guided through the following areas:

Identifying your target market: Who will buy the product and why?

Branding: Developing a brand which appeals to your target market.

Brand positioning: Recipe design and differentiating your product.

Packaging design: Developing a design that will stand out from the crowd.

After initial planning, teams learn the essential skills of chocolate making. Guided by a professional chocolatier, teams will produce their own unique recipes (in line with their target market and brand strategy) and create a range of handmade chocolates.
